

OMKAR SANTOSH SURYAWANSHI

Java Full Stack Developer

Pune, Maharashtra, India | +91 9404316393 | omkar190205@gmail.com | www.linkedin.com/in/omkarsuryawanshi0408

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building REST APIs and full-stack web applications using Java, Spring Boot, React, and Python. Delivered production-grade features including an OCR-based data extraction pipeline processing 45,000+ records and responsive UI components for live business websites. Adept at end-to-end development spanning database design, backend architecture, and frontend integration, with API testing via Postman and experience working in small collaborative teams. Seeking to bring strong full-stack engineering skills to a Java-focused development team.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Backend: Spring Boot, Hibernate, Django, Node.js, REST APIs, Microservices

Frontend: React.js, HTML, CSS, TailwindCSS, Bootstrap

Databases: PostgreSQL, MySQL, MongoDB

Tools & Concepts: Maven, Git, Postman, Vercel, Docker, AWS, OOP, Data Structures

PROFESSIONAL EXPERIENCE

AI Research & Development Intern — Marva AI LLP, Pune, India

Jan 2025 – Jul 2025

- Developed backend services in Python (Django) to process OCR-based MCQ extraction, handling a dataset of 45,000+ NEET Biology questions.
- Implemented Tesseract OCR to convert scanned question papers into structured JSON records stored in MongoDB.
- Built a responsive React and TailwindCSS frontend enabling real-time upload, review, and editing of extracted questions.
- Integrated frontend and backend workflows to support end-to-end MCQ extraction and correction at scale.

Software Development Intern — QHills Technology Pvt. Ltd., Pune, India

Nov 2023 – Jun 2024

- Built 5 reusable UI components for the Vedainary business website using React.js and JavaScript, as part of a 4-person team (3 interns, 1 developer).
- Developed a booking form module for Pooja and Havan services, improving the site's user booking flow and usability.
- Collaborated under task-based sprint assignments from the team's developer, contributing to on-time delivery of assigned modules.
- Gained hands-on experience with responsive UI development, code reviews, and team-based software workflows.

PROJECTS

Full-Stack E-Commerce Web Application (Personal Project) — Ongoing

Technologies: Java, Spring Boot, Hibernate, React, PostgreSQL, Maven

- Designed and implemented backend architecture including entities, repositories, services, and REST controllers using Spring Boot and Hibernate.
- Validated all API endpoints through Postman testing, covering core CRUD operations for an order-management workflow.
- Currently extending the application with payment integration, a returns/refund workflow, and React-based frontend integration.

Shetkari Juice and Snacks Center — Business Web Application

Technologies: React (Vite), TailwindCSS, PostgreSQL

- Built a responsive website to showcase menu items and services for a local food business.
- Implemented dynamic UI components and a clean, mobile-friendly interface.
- Improved the business's digital presence and customer accessibility.

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations | AWS Academy | Nov 2025

Java Training Certificate | EduPyramids, SINE, IIT Bombay | 2026 (Scored 87.50%)

EDUCATION

Master of Computer Science (MCS) | Modern College, Pune (Savitribai Phule Pune University) | 2024 – 2026

Part II Percentage: 81.27%

Bachelor of Science in Computer Science | Yashwantrao Chavan Institute of Science, Satara (Shivaji University, Kolhapur) | 2021 – 2024

CGPA: 9.03 / 10

HSC | Maharashtra State Board | 2021 | 78% **SSC** | Maharashtra State Board | 2019 | 74.60%
